

AIRPORT EXIT

Bergen Airport, Flesland (BGO)

Verified Oct 2026 · airportexit.guide — offline one-pager

THE ANSWER

Take the Bybanen light rail line 1 from the stop in the terminal's basement to Byparken in the centre on an ordinary 51 kr Skyss single ticket. Flesland sits in zone A, the same zone as the city, so there is no airport surcharge.

Bergen is one of the rare airports where the plain city ticket already reaches the terminal: the airport and the centre are both in Skyss zone A, so the airport run costs the same 51 kr as any one-zone journey, is valid 60 minutes and includes transfers to buses and the other light-rail line.

Tight budget? The 51 kr tram is already the cheapest way in - children 6-17 and seniors pay 26 kr and up to four children ride free with a paying adult. In a hurry? The Flybussen reaches the bus station in about 20 minutes for 189 kr booked online (220 kr from the driver), and a Bergen Taxi fixed fare is 614-664 kr for up to four.

EVERY WAY OUT — REAL PRICES

Bybanen light rail line 1 to Byparken *BEST FOR MOST* 51 kr

The stop is in the terminal's basement (underetasje); line 1 runs to Byparken in the city centre in about 43-45 minutes, every 5-10 minutes by day and roughly every 15 minutes late at night. An adult one-zone Skyss single is 51 kr, valid 60 minutes; children 6-17, seniors and military pay 26 kr and students 30 kr. Buy it in the Skyss or Skyss Billett app, by SMS to 2412, or at the platform machine - never on board.

Flybussen airport express (FB50/FB51) 189-220 kr

Departs from stop A3 just outside the main terminal exit and runs to Bergen busstasjon in about 20 minutes via the Knappetunnelen and Fyllingsdalen, then on to six city-centre stops including Festplassen and Bryggen. Adult 189 kr booked on flybussen.no and 220 kr from the driver; children up to 17 pay 9 kr. Return tickets have been withdrawn, so buy two singles.

Taxi from the rank (Bergen Taxi fixed fare) 614-664 kr

Bergen Taxi publishes a fixed fare to the city centre of 580 kr on weekdays 06-18 and 630 kr at nights and weekends for 1-4 people, plus a 10 kr toll and a 24 kr airport fee on departures - 614 kr and 664 kr all-in. For 5-8 people it is 820/890 kr plus the same fees. The fixed zone covers postcodes 5003-5008 and 5010-5018 and applies both ways. Book in the 07000 app or at a Fast Travel kiosk.

Uber (ride-hailing) app quote

Uber operates at Flesland 24/7 and can be requested on landing or reserved ahead with Reserve, but it publishes no fixed airport price - you get the fare in the app, and Reserve is the way to lock it in. Pick-up is outside the terminal; follow the app's directions rather than the taxi rank.

Bergen Card (24 hours) 400 kr

Not a transfer in itself: a 24-hour Bergen Card costs 400 kr adult and 100 kr child (3-15) and includes free Skyss buses and Bybanen travel in zone A, so it does cover the airport line. The 48, 72 and 96-hour cards are 500, 600 and 700 kr. Worth it only if you will also use the museums and attractions it opens.

THE TRAPS — WALK PAST THESE

You cannot buy a ticket on board the Bybanen

Skyss sells tickets in the Skyss app, by SMS to 2412 and at the platform machines, but not on the tram: the operator's own page warns that you cannot buy a ticket on board the light rail in Bergen, and the machines at the airport stops sell zone A only. Board without one and an inspector's fee applies. **Do this:** buy in the Skyss app or at the platform machine in the terminal basement before you board

A Skyss ticket or the Bergen Card does not cover the Flybussen

The airport express bus is a separate operator with its own fares: a Skyss single or period ticket is not valid on it, and a Flybussen ticket is not valid on Skyss. Even the Bergen Card, which makes the Bybanen free, only covers Skyss transport in zone A. Two systems, two tickets. **Do this:** buy a separate Flybussen ticket on flybussen.no if you take the bus

Buying the Flybussen from the driver costs 31 kr more

The same adult seat is 189 kr booked on flybussen.no and 220 kr from the driver, and Flybussen itself says plainly that the cheapest tickets are the ones bought in advance. Return tickets have been withdrawn, so the saving is on every single. **Do this:** book on flybussen.no before you travel and show the QR code on your phone

Flesland taxis now run on pre-booked kiosks - and unlicensed cars work arrivals

Since 25 November 2025 Avinor's forecourt at Flesland is run by Fast Travel: you order your own car at one of five booking kiosks (at the domestic arrivals exit and at the taxi stand) and agree the price on screen, where the cheapest company is listed first. Drivers who approach you inside the terminal are not part of that system - police have prosecuted unlicensed drivers picking up passengers at Flesland, who target tourists - and Avinor says every driver must state the fixed price before the trip begins. **Do this:** order at a Fast Travel kiosk or in an app and agree the price before the car moves

KNOW BEFORE YOU WALK

- The Bybanen stop is in the terminal's basement; line 1 reaches Byparken in the centre in about 43-45 minutes, running every 5-10 minutes by day and about every 15 minutes late at night.
- A one-zone Skyss single is 51 kr and valid 60 minutes, so the same ticket carries you on to a bus or the other light-rail line inside zone A; children 6-17, seniors and military pay 26 kr, students 30 kr, and up to four children travel free with a paying adult.
- The ticket machines on the Bybanen platforms sell zone A only - which is exactly what both the airport and the city centre need, so the ordinary ticket is the right one.
- The Flybussen leaves from stop A3 outside the main exit; Nor-Way's Fjordekspresen and Kystbussen use A5-A6 for Forde, Sogndal, Haugesund and Stavanger.
- Bergen Taxi's fixed fare is 580/630 kr for 1-4 people and 820/890 kr for 5-8, plus a 10 kr toll and a 24 kr airport fee on departures; it covers postcodes 5003-5008 and 5010-5018, so a hotel or cruise quay inside those pays the fixed price and anywhere outside runs on the meter.

Prices read in October 2026 from the operators' own pages and Avinor. Skyss: an adult one-zone single is 51 kr (children 6-17 and seniors 26 kr, students 30 kr, military 26 kr), valid 60 minutes, and Flesland and the city centre are both in zone A; the light rail takes about 43-45 minutes to Byparken and there is no ticket sale on board.

Flybussen: 189 kr booked online and 220 kr from the driver is Visit Bergen's August 2026 figure - the operator publishes prices only in its booking search, and an older listing still shows 169 kr. Bergen Taxi: its Norwegian fare page (from 20 April 2026) gives 580/630 kr for 1-4 and 820/890 kr for 5-8, plus a 10 kr toll and a 24 kr airport fee; the English page still shows an older 06-22 window and a 7 kr toll. Bergen Card 2026: 400/100 kr for 24 hours, 500/125 for 48, 600/150 for 72 and 700/175 for 96. Taxis at Flesland are ordered at Avinor's five Fast Travel kiosks, and drivers must state the fixed price before the trip.
