

AIRPORT EXIT

Vilnius Airport (VNO)

Verified Oct 2026 · airportexit.guide — offline one-pager

THE ANSWER

Take the LTG Link airport train - EUR 0.90, up to 8 minutes from a platform that is a 2-minute walk from arrivals, straight into Vilnius railway station (Gelezinkelio g. 16) at the edge of the Old Town.

It is the cheapest and fastest link in any Baltic airport - the airport has its own railway stop and seats do not need reserving.

Tight budget? City bus 88 to the centre costs EUR 1.25 for a 60-minute ticket - tap your contactless bank card on the validator, there are no tickets from the driver. Landing late? The 88N night bus runs 22:30-05:30 at the same price, or use Bolt's reserved pick-up zone with 10 bays beside the intercity bus stops.

EVERY WAY OUT — REAL PRICES

LTG Link airport train *BEST FOR MOST* **EUR 0.90**

The railway stop is a 2-minute walk from the arrivals terminal (stairs or lift). Journey to Vilnius railway station: up to 8 minutes. Trains within the window 07:10-19:20 daily from the airport (08:00-18:30 towards it on weekdays). EUR 0.90 any way, seats unreserved; buy at Itglink.lt, the LTG Link app, Perlas terminals, the outdoor machine on the platform, or on the train.

City buses 88 / 3G / 1 / 2 **EUR 1.25**

Bus 88 runs Airport-Centras-Europos aikste (Old Town edge), 3G is the express line into the centre, buses 1 and 2 go to the railway station. Tap a contactless bank card on the validator on board and a EUR 1.25 60-minute ticket is issued automatically; 30-minute tickets are EUR 1.00 in the JUDU/Trafi/m.Ticket apps. Drivers no longer sell tickets.

88N night bus **EUR 1.25**

Runs every night 22:30-05:30 on the route Airport-Stotis-Centras-Europos aikste at the ordinary daytime ticket price. Covers late Ryanair and Wizz Air arrivals.

Airport Express coach (TOKS) **EUR 3.00**

Daily service between Vilnius Airport and Vilnius bus station; tickets from the driver, station counters or autobusubilietai.lt. Useful if your onward coach leaves from the bus station, which sits 180 m from the railway station.

Taxi (official rank) **metered**

The airport's recommended taxis queue outside arrivals; official cars carry stickers inside showing the approved tariffs and take cash or card. No fixed airport fare is published - the airport runs an overcharge-complaint scheme, so keep the driver's receipt.

Bolt **app quote**

Vilnius Airport has a designated Bolt pick-up area with 10 reserved parking spaces next to the intercity bus stops - the airport's own pick-up guidance beats haggling at the kerb.

THE TRAPS — WALK PAST THESE

The airport train day ends around 19:20

The airport's own timetable lists airport-to-city departures only inside a 07:10-19:20 window (and inbound trains 08:00-18:30 on weekdays). Budget-airline arrivals after dinner find the platform empty - there is no night train. **Do this:** land after about 18:30, go straight to bus 88 or the 88N night bus instead of the railway stop

The bus driver sells no tickets

Ticket sales via drivers were discontinued on 1 September 2024. The valid on-board method is tapping a contactless bank card on the validator, which buys the EUR 1.25 60-minute ticket; apps (JUDU/Trafi/m.Ticket) or a EUR 1.50 JUDU card loaded with e-tickets work too. Ride without an activated ticket and inspectors fine you. **Do this:** tap the same bank card on the validator the moment you step on board

Flat-price offers inside the terminal

The airport warns that only official Vilnius Airport taxis - identifiable by in-car stickers showing the approved tariffs - are the contracted rank; it solicits receipts specifically to investigate overcharging. Men quoting flat prices by the exit are not the rank cars. **Do this:** queue at the official taxi line or use the marked Bolt zone, and check the tariff sticker before loading bags

Check-in has moved to the new departure terminal

Under the airport's current notice, the new departure terminal is open and check-in and security screening now happen only there. Old guides and muscle memory pointing at the historic arrivals building will waste your morning. **Do this:** head for the new departure terminal when you are leaving Vilnius, not the old building

KNOW BEFORE YOU WALK

- Tap a contactless card on the validator for an automatic EUR 1.25 60-minute ticket - bus-to-bus transfers stay valid inside the hour.
- Buying the EUR 1.50 JUDU card at the Narvesen shop in Terminal A or the departure terminal is worth it for several hops in one day.
- The rail platform's ticket machine sits outside on the platform - pay by card or use the LTG Link app instead.
- The 88N night bus (22:30-05:30) costs the same as daytime buses - the cheapest late landing into town.
- Vilnius railway station is 180 m from the main bus station, so the EUR 0.90 train doubles as your intercity-coach connection.

Train EUR 0.90 and the 07:10-19:20 window from the airport's own trains page; ticket prices EUR 1.00/30 min, EUR 1.25/60 min and the EUR 1.50 card from JUDU (Vilnius public transport operator); Airport Express EUR 3.00 from the airport site. Taxi fares are not published as a fixed table - rank rides are metered within the approved tariffs shown inside each car; app fares are quoted in-app.
